

Kiryl Arlouski

Senior Frontend Developer

Warsaw, Poland · +48 578 438 351 · [linkedin.com/in/kiryl-arlouski](https://www.linkedin.com/in/kiryl-arlouski) · k.smolniy@gmail.com

Professional Summary

Senior Frontend Developer with **9+ years of experience** building scalable web applications using **Next, React** and **TypeScript**. I've been building things since I was a kid.

My main goal is to move products forward and make developers' lives easier, finding the struggle points and enhancing them.

Experienced in building maintainable systems with strong focus on performance, clean code and great user experience. Skilled in leading teams, driving innovation, and delivering high-impact solutions in startups and enterprises.

Core Skills

Languages: JavaScript (ES6+), TypeScript, Node.js

Frontend: React, Next.js, React Native, Redux, Zustand, React Query / TanStack Query

Testing: Jest, Vitest, React Testing Library, Playwright, Cypress

Architecture: Design Systems, Microfrontends, Monorepo

Performance & Quality: Web Performance Optimization, Code Splitting, Lazy Loading, Lighthouse Optimization, Web Vitals (LCP, CLS, INP)

Tooling: Webpack, Vite, Nx, Git, CI/CD

Mobile: React Native (iOS, Android)

Styling: SASS/SCSS, styled-components, Tailwind CSS

APIs: REST, GraphQL

UI Development: Design Systems, Storybook

Accessibility: WCAG, semantic HTML, accessible component design

AI: Claude, Copilot

Professional Experience

EPAM Systems — Senior Frontend Developer

Nov 2022 – Present · Poland

- Develop scalable web applications using React and TypeScript in enterprise environments, including a major banking platform with secure authentication flows and real-time data features, supporting millions of customers
- Design reusable UI components and micro-frontend architecture, contributing to shared design systems
- Optimize frontend performance through code splitting, lazy loading and bundle optimization, cutting initial bundle size by ~66% (2.5MB → 856KB) and improving LCP from 2.6s to 1.4s
- Implement accessible user interfaces compliant with WCAG standards
- Implement feature flags and A/B testing to support safe, iterative releases; build i18n/localization support for multi-region rollout
- Collaborate with cross-functional teams (5–6 FE, 5–6 mobile, backend, QA, analysts) to support weekly product releases
- Participate in technical planning and backlog grooming with product teams
- Conduct code reviews and mentor 1–2 junior developers

EPAM Systems — Frontend Engineer

Nov 2018 – Nov 2022 · Poland / Belarus

- Developed production UI features using React and modern JavaScript
- Developed complex UI workflows for shipment lifecycle management in a global logistics transportation platform, using React, TypeScript and an Nx monorepo
- Developed cross-platform mobile application features using React Native and GraphQL APIs for a healthcare & retail platform, collaborating with backend teams on BFF contract design
- Improved performance through dependency optimization and bundle splitting
- Integrated frontend applications with REST and GraphQL APIs
- Enhanced accessibility of interfaces following WCAG standards
- Maintained high code quality through automated testing and code reviews

iTechArt Group — Frontend Engineer

Aug 2018 – Oct 2018 · Minsk, Belarus

- Developed UI components for a marketing automation platform using React
- Implemented new product features and supported legacy frontend code
- Collaborated with distributed teams in Agile workflows

Ultralab — Frontend Engineer

Jan 2018 – Jul 2018 · Minsk, Belarus

- Developed UI features for a digital advertising platform
- Implemented responsive interfaces using JavaScript, HTML and CSS
- Integrated frontend with backend APIs and participated in sprint planning

LWO — Frontend Developer

Sep 2017 – Jan 2018 · Minsk, Belarus

- Developed single-page web applications interacting with REST APIs
- Implemented cross-browser compatible UI components
- Maintained and refactored existing frontend codebase

Education

Belarusian State University of Informatics and Radioelectronics (BSUIR)

Bachelor's degree - Computer Technologies (2017 – 2021)

BSUIR Affiliate "Minsk Radioengineering College"

Specialist Degree — Software Programming Technologies (2013 – 2017)

Languages

English · Polish · Belarusian · Russian
